Product	Backdrop, standees, Project material such as brochures, leaflet and studies	
Company Profile	<p>WWF-Pakistan was established in 1970 and was instituted to address local environmental issues in the country. Pakistan faces numerous economic, environmental and social challenges that are exacerbated by a rapidly increasing population. Urban challenges - include pollution and overcrowding, whereas rural communities face vulnerability to extreme weather events and issues stemming from their dependence on natural resources for their daily needs and livelihoods. At the same time, poverty and a lack of education and awareness adversely impact the environmental situation in the country, giving rise to concerns related to food, water and energy security, in addition to conservation issues.</p> <p>WWF-Pakistan works to address these challenges through its mission- to stop the degradation of the planet's natural environment and to build a future where people and nature can thrive, by: 1 Conserving the world's biological diversity, 2. Ensuring that the use of renewable natural resources is sustainable 3. Promoting the reduction of pollution and wasteful consumption.</p> <p>WWF-Pakistan is currently working in eighteen different landscape areas of land or water that share similar or interrelated ecological processes and characteristics. Conservation here involves joining these areas together to maintain and improve ecological integrity for the benefit of both people and nature. Conservation areas: Freshwater, Forests, Food and markets, Wildlife, Oceans, Climate and energy.</p>
